

# Matthew's Center

*Enhancing Lives through the Principles of Applied Behavior Analysis*

Dear Camp Adventure Families, Partners, Counselors and Volunteers,

After careful consideration, Matthew's Center has decided not to hold Camp Adventure in summer 2019. While we realize the importance of this program to many individuals and their families, we are at a crossroad and must fully evaluate all aspects of the program.

We will be working diligently with our Board Members, Community Partners and stakeholders to pursue a variety of funding avenues as well as potential program expansion opportunities with the goal of resuming Camp Adventure. We sincerely apologize for any inconvenience this may cause. We wanted to inform you as soon as possible so that each family would have time to find other options for their student's summer care. Thank you for your support of Camp Adventure over the past years. Please do not hesitate to contact John Rodriguez, Supervisor of Facilities and Ancillary Programs, or myself should you have any questions.

Regards,

**Brandy Moss, M.A.T, M.Ed.**  
Interim Executive Director
